

## All-In-One KVM Cable

DKVM-CB

*Connects KVM switch  
to your computer*

### Product Features:

**\*6 Foot Length**

**\*All-in-One, Colour Coded Cabling**

### Product Description:

#### D-Link KVM Solution

The DKVM-CB Keyboard, Video, and Mouse (KVM) cable is a 6 foot cable that is compatible with D-Link DKVM series KVM Switches. It is also compatible with most KVM switches available on the market today. Each end of the cable includes a keyboard and mouse connector (6 pin Mini-Din Male) and a video connector (15 Pin HDD Male). The Video cable is designed to ensure the highest quality of video over a KVM switch connection.

#### Keep Organized

The DKVM-CB is an all-in-one cable that minimizes desktop clutter by combining each cable into one convenient package. Each cable end is color coded (PC99) to ensure proper installation. Also, each cable is specially shielded with a ferrite core to reduce electromagnetic (EMI) and radio frequency interference (RFI).
